

Eduardo Arevalo Villanueva

Computer Systems Engineering Student | ESCOM - Instituto Politecnico Nacional
Email: 3duarevalo@gmail.com | Location: Estado de Mexico, Mexico | Portfolio: personal website

Professional Profile

Computer Systems Engineering student with a strong interest in software development, computer networks, cybersecurity and cryptography. Experienced in academic projects using Java, Python, C, HTML, CSS, JavaScript and SQL. Comfortable documenting technical work, building small applications, testing programs and explaining technical results clearly.

Education

Escuela Superior de Computo - IPN (ESCOM)

B.S. in Computer Systems Engineering

Current undergraduate student. Coursework includes programming, networks, databases, operating systems, digital systems and cryptography.

Universidad de Ecatepec

High School / Bachillerato

Developed foundational skills in mathematics, programming logic and academic project work.

Technical Skills

- Programming: Java, Python, C, JavaScript, HTML and CSS.
- Tools: Visual Studio Code, Git/GitHub, XAMPP, Packet Tracer, Arduino IDE and basic Linux commands.
- Areas of interest: Web development, computer networks, cybersecurity, cryptography and database systems.
- Soft skills: Teamwork, problem solving, technical documentation and presentation of project results.

Academic Projects

Personal Portfolio Website - Designed a responsive personal website including academic background, interests, social links, public key download and an English CV.

Socket Programming Exercises - Implemented client-server communication exercises in Java, documenting the use of Socket and ServerSocket classes.

Cryptography Practices - Worked with classical and modern cryptography topics, including DES concepts, symmetric encryption, XOR operations and public key usage.

Network Configuration Practices - Designed and tested basic network scenarios using routing concepts, addressing and service configuration in academic environments.

Languages

Spanish: Native | English: Basic to intermediate technical reading and writing.

Interests

Football, videogames, horror movies and series, music, concerts and continuous learning in technology and cybersecurity.
